

## CAREER OBJECTIVE

I am a dedicated MERN Stack Developer and a BCA 2nd year student with strong skills in MongoDB, Express.js, React.js, and Node.js. I enjoy creating user-friendly, scalable, and efficient web applications. Along with my technical knowledge, I am also proficient in Microsoft Office, which helps in documentation and project management. I have a strong interest in problem-solving and enjoy collaborating with teams to build innovative solutions. My goal is to grow as a professional developer, contribute to impactful projects, and continuously enhance my skills to keep up with the evolving tech industry.

## EDUCATION

### JNMPG COLLEGE, BARABANKI RMLU

Bachelor of Computer  
Application 2024..... (Present)  
Currently pursuing, 2<sup>nd</sup> year

### Azimuddin Ashraf Islamia Inter College Barabanki

High School and Intermediate education

## SKILLS

- **Language:** - JavaScript
- **Web technologies:** - html, CSS, react.js, node.js, MongoDB
- **Supporting Skills:** -Problem Solving, Effective communication, teamwork

## CERTIFICATIONS

I have completed a **6-month MERN Stack Development course in Lucknow**, gaining hands-on experience in building full-stack web applications using **MongoDB, Express.js, React.js, and Node.js**. This training helped me strengthen my skills in frontend and backend development, API integration, and database management.

## PROJECTS

### Blog Application (MERN Stack)

Role: Full-Stack Developer | December 2024 – February 2025

Developed a full-stack blog application using MongoDB, Express.js, React.js, and Node.js that allows users to create, read, update, and delete blog posts with authentication and authorization features. Implemented JWT-based user authentication, secure password hashing, and session handling for safe access. Designed a responsive and user-friendly UI with React and Tailwind CSS, and built RESTful APIs for efficient communication between frontend and backend. Deployed the project on Netlify (frontend) and Render (backend) for live access. **Click for check:** [Live Demo](#)

### NOTES MANAGEMENT APP

Role: Full Stack Developer | March 2025 – April 2024

A MERN stack based notes management platform where users can securely upload, save, and access study notes in PDF format. The platform features user authentication, personalized profiles, and a powerful search functionality to explore notes shared by other users. **Click for check:** [Live Demo](#)

### Wander Lust

Role: Full Stack Developer | May 2025 – June 2025

The platform was built using the MERN stack, React.js for a dynamic and responsive user interface, Node.js and Express.js for backend logic and API handling, and MongoDB for managing hotel and user data. It includes key features such as hotel listings, search and filter functionality, user authentication, and a booking system.
